CONCERT PROMOTION NOTE:

The band and its management would love to partner with you in promoting this event. Posters, flyers, photos, videos and much more are available for download at the promoter site.

The band is available to do interviews with local radio, newspapers, entertainment websites, etc.. The band has found that the most powerful promotion is grassroots – especially facebook. It is suggested that the majority of promotion occur 4-6 weeks prior to the actual event date and then a last push the week of the show. Remedy Drive will promote this event to its email list, myspace and facebook communities.

Please visit our promoter site at <http://www.remedydrive.NET/promotersite>

REMEDY DRIVE - CONCERT RIDER 2009

This document is designed to communicate the band's needs and keep communication clear so that the event runs as best as possible. Remedy Drive performs in many various locations and venues across the country and have learned a lot of simple tips to make for a smooth event. Many of the requests below will make for a better event not only for the band but also for the event as a whole. Please take special note to the categories below and if you run into questions please reach out to Remedy Drive's Management with any concerns.

CONCERT ISSUES

SCHEDULE: A final schedule should be determined one week prior to the event and communicated on the advancing phone call. At that point we will finalize times for load-in, sound-check, dinner, and the show (see advance form below).

Typical schedule is as follows for a Remedy Drive Headlining show:

(the road manager will verify final schedule – Fly date schedules are more flexible based on band's arrival times)

10:00 AM Walk Through/Area Prep - Load-in with Volunteers
12:00 PM Lunch
1:00 PM Remedy Drive Sound Check
2:00 PM Opening Band Sound Check
(Free Time – Runner Available)
5:00 PM Dinner
5:45 PM Merch Volunteer Training
6:00 PM Doors Open
7:00 PM Show Begins
7:30-8:00 PM Remedy Drive Performance Begins
9:30 PM Load Out with Volunteers
10:00 PM Financial Settlement

NOTE: On club/festival bookings this schedule may be adjusted to accommodate individual venue showtimes. Schedule changes and opening act set times should be discussed and approved by road manager.

PRODUCTION: A cleared stage area of at least 30' wide and 16' deep is preferred with an 8'x8'x3' drum riser at center stage.

You (The Promoter) are required to provide a professional sound system comparable to the system and components listed in their production specs (see technical requirements section). The sound system must be approved by artist management.

On Fly Dates, the band sometimes travels with a sound engineer who will direct setup of the system as well as be the stage manager for the entire night. If the sound engineer is not with the band, you are required to provide a sound engineer who will operate the board for the night. If they do have an engineer, the band's sound engineer will have control of the sound during Remedy Drive's performance but will need assistance with becoming familiar with any provided gear or electrical needs so please have an adviser available. The band will also use the provided lights in the venue/performance hall and ask that you provide a lighting director.

LOAD IN/OUT: Upon arrival (see above schedule), please have the stage cleared as well as have a minimum of 5 loaders to help carry equipment and a minimum of 5 loaders to help pack things up when the concert is over. (Stage plot, input list, and productions specs are available for download at <http://www.remedydrive.NET/promotersite>.) Load-in and load-out typically take around 50 minutes so please be sure your volunteers are scheduled for that.

ELECTRICAL: Proper electricity is vital to the concert's success. A distribution box works great for the band's needs. Please make sure that you have communicated effectively with your production company for electricity needs. This should be taken care of in advance because it is the most important technical part to a successful evening. Please have a facilities manager on site to assist with power/electricity.

ADDITIONAL PERFORMERS: Remedy Drive encourages most promoters to add local opening acts or other national acts to the concert. If there are additional acts they must use a shared drum kit. Set times should be allotted to 15 minutes for local/regional acts and 20-25 minutes for national acts. All monies or agreements paid to those acts should have no effect on Remedy Drive's payment and should be contracted separately. Additional performer payments should also have no bearing on minimums for door splits owed to Remedy Drive. All other performers including opening bands, public speakers, speaking, altar calls, and announcements need to be pre-approved with Remedy Drive's road management. Please make all opening bands aware of sound check times (see previous daily schedule).

GUEST LIST: The band should be allowed a guest list of up to 10 people total, to be announced on day of show. The guest list will be furnished by the road manager 1 hour before doors. Any additional people will be discussed with the promoter prior to the event.

OFF STAGE ISSUES

MERCHANDISE AREA: The crew will take care of most of the setup for the merchandise area. The band asks for this area to be a cleared, high-traffic area (preferably the main lobby near the main entrance and exit) with nearby electrical outlets. Please provide two 6-8' tables as well as two volunteers to run the merchandise table through the night. Volunteers should arrive 30 minutes prior to doors and training will take place 15 minutes prior to doors opening.

DRESSING ROOMS/GREEN ROOMS: The band will need 1 private, lockable dressing room with bathroom access nearby and access to a mirror. The room should be secured from audience or staff and within an easy walking distance of the stage. Please equip this room with 6 full size towels.

In addition, please provide a public room or lounge (a "green room") which is very close to the stage. Please place the following items in the green room: bottled water, 2% milk, juice, snacks, cookies, fruit and cereals, as well as 6 hand towels (stage towels). The green room ideally is a comfortable room equipped with chairs, couches, tv's, etc..

MEALS AND HOSPITALITY: The band appreciates loving hospitality as they are on the road many days out of the year. Please have 2 meals (lunch and dinner), ready on-site in a back stage area. The band loves to eat with whoever is involved with the event as long as there is enough food for everyone.

Please prepare healthy meals (main dish, vegetable sides, bread, salad, fruit, etc.) for seven adults. The band tries to stay away from foods such as pizza, fried foods (fried chicken), pork products (due to a food allergy), bbq and cold cuts.

Some of the band's favorite dishes include pot roast with vegetables, meat loaf, baked or grilled chicken, chili with cornbread, different types of soups, many types of salads, and ethnic foods such as Greek (feta cheese and olives), Asian and Mexican foods. The band loves to have fruit juices at dinner and would like bottled water for the stage – preferred sodas are Mountain Dew and Dr. Pepper. A small snack or even leftovers after takedown is always great as well.

PLEASE NOTE: One of the band members has an allergy to pork. This includes bacon, ham, sausage, salami, bbq pork, and pork loin. Please be conscience not to add pork as an ingredient to any dish served to the band.

LODGING: You are typically contracted to reserve the band three separate rooms at a hotel near the venue or the airport. Holiday Inn Express or similar is preferred. Please communicate with the band's management about hotel accommodations. Also, see AIRPORT TRANSPORTATION notes below for more information.

RUNNERS: The band asks for 1 volunteer (licensed, and over age 25) equipped with a mobile phone and a large vehicle (seats 6). This "runner" and their vehicle should be available to make trips from the venue as the band's bus does not move once it is parked. If the band must make an interview, grocery run, airport pick-up, or miscellaneous trips off-site, this volunteer will be available for that purpose. Please have them available between 12PM and 5PM. The band's road manager will need access to the runner's phone number.

AIRPORT TRANSPORTATION: Being that this event is a fly date, we ask that you provide a runner to transport the band from the airport to the hotel or venue for a pick-up and drop-off. If the hotel provides a shuttle, the band may use the shuttle in which case they would need a runner from the hotel to the venue.

BUSINESS ISSUES

PRODUCTION OFFICE: The band requests a production office/area with a desk and access to internet for the road manager. All settlements, private discussions, and business transactions should take place in this area. If possible, a private area is preferred.

CANCELLATION POLICY: All cancellations by the promoter greater than 60 days of the event are subject to the promoter's loss of their deposit. In the case of cancellations by the promoter between 60 and 30 days of the event, you agree that you will pay Remedy Drive 50% of the agreed-to guaranteed amount. In the case of cancellations by the promoter less than 30 days of the event, you agree that you will pay Remedy Drive 100% of the agreed-to guaranteed amount.

FINANCES/SETTLEMENT: Please make all checks payable to Remedy Drive. Please return the agreed-to deposit amount to your responsible booking agent within two weeks of this agreement. The remaining balance and travel monies are due to the band on the night of the event. Remedy Drive's legal company name is Fire Eyes Inc. but all checks should be made out to Remedy Drive.

INSURANCE: You, as the promoter, are responsible to provide public liability insurance coverage to protect against Injuries to person or property. In addition, it is agreed that the promoter shall have "*Fire Eyes Inc. dba Remedy Drive*" named as additionally insured on insurance policy in an amount required by building contract. The promoter remains responsible for complete coverage. The band recommends a coverage amount of over \$500,000 on the day(s) of the actual contracted performance.

INDEMNIFICATION: The promoter shall further indemnify and hold Remedy Drive and its representatives, its contractors, employees, licensees and designees harmless from and against any loss, damage or expense including reasonable legal fees incurred or suffered by or threatened against Remedy Drive in connection with or as a result of any claim for personal injury or property damage or otherwise brought by or on behalf of any third party person, firm or corporation as a result of or in connection with the engagement, which claim does not result directly from gross negligence of Remedy Drive, its employees, contractors, or agents.
